G. WARREN DAVIS
IS MADE PRESIDENT.
Elected by State Dairyman's Association—
Result of Butter and Milk
Tests.

G. Warren Davis of Norwich was
elected president of the State Dairy-
men's association at the opening
Thursday of the final session of the
convention, which has been held in
United Hall, Hartford, since Tuesday.

The vote gave Mr. Davis 32 votes and
W. H. Lee, the retiring president, 2. It
is customary for the presiding officer
of the convention to be elected president
of the association, and ex-Pro-
sident Lee has been in office since 1903.

The other officers were elected as
follows:
President—Frederick E. Duffy,
West Hartford.
Treasurer—R. G. Patterson, Torrington.

The directors from four counties
were re-elected as follows: Hartford,
Thomas Holt, Southington; New Ha-
ven, A. J. Pierpont, Waterbury; Wind-
ham, C. R. Pomeroy, Jr., Willimantic;
New London, E. J. Hempstead, New
London.

The tellers officiating were: F. E.
Duffy of West Hartford, Prof. J. M.
Trueman, Storrs; H. W. Andrews,
Cornwall; E. B. Pitts, Storrs.

During the balloting of the officers re-
marks were made by Professor Trueman
and G. Warren Davis on the care
of cows. Milo B. Beach of Litch-
field spoke on feeding skim-milk to
calves and pigs.

P. M. Harwood, general agent for
the dairy commissioners of Massa-
chusetts, addressed the meeting on
condensed, evaporated, concentrated
powdered milk in his state. He stated
that condensed milk costs on the av-
erage 2-1/2 cents a quart and is not
as good as fluid milk. He asserted
that it is not sterile, as advertised, and
that bacteria counts of condensed
milk show many thousands of bacteria.
Evaporated milk, he said, is practical-
ly sterile.

On the conclusion of Mr. Harwood's
address, President Lee called Presi-
dent Davis to the platform and re-
signed the chairmanship of the meet-
ing to him.

The convention closed Thursday after-
noon after an address by Dr. E. H.
Jenkins of the New Haven Agricultur-
al Experiment Station on the Present
Status of Alfalfa in the State. Prof.
Nicholas Schmitz, of the Agricultural
Experiment Station, College park,
Maryland, who was to have addressed
the conference, was absent, and N. P.
Hull, president of the American Dairy
Farm association at Danville, Mich.,
addressed several minutes connected with
successful dairying.

The report of the butter, milk and
cream tests had several entries from
the end of the state.

For creamery butter, F. W. Harding
& Co. of Lyme had a score of 96.5, as

A sample letter:

Battle Creek, Mich.
Gentlemen:

"I am a reader of the—Weekly
and notice they give you a great deal
of credit of late."

"When they first began to criticize
you I became somewhat interested
and began to wonder what you
were. Now I know you are a great
man, and as my curiosity got the best
of me, I bought a package and I liked it
so well I have used several packages.
And to my surprise I find I am gain-
ing in weight and feeling fine."

"Since using Grape-Nuts I have
talked with several people about them
and they all think as I do, that they
are the best breakfast food on the
market today."

"So in this case a knock is a boost
with those who use Grape-Nuts."

Respectfully,
W. G. Payne,

A goodly collection of this sort are
coming in daily, for which we are
duly grateful.

Robber Catarrh

Steals Energy and Will Power
from its Victims.

Catarrh robs its victim of energy—
some physicians say of will power.
That may be the reason why thousands
of catarrh sufferers haven't ambition
enough to accept this fair and square
offer by Lee & Osgood Co., which they
make without any whys and where-
fores or red tape of any kind.

Lee & Osgood Co. say "they guaran-
tee HYOMEI to cure catarrh and all
chronic, or money back," and that of-
fer is open to every reader of The
Bulletin.

HYOMEI (pronounce it High-o-me)
is the purest Australian Eucalyptus
combined with Thymol and other germ
killing antiseptics.

Put a few drops into the small vest
pocket HYOMEI inhaler and breathe it
into the lungs over the inflamed
membrane infested with catarrh
germs.

It is pleasant to use—it kills the
germs, soothes the sore membrane, and
cures catarrh; if it doesn't your money
back.

A bottle of HYOMEI costs 50 cents
at drug stores everywhere and at Lee
& Osgood Co.'s, a complete outfit,
which includes a bottle of HYOMEI, a
hard rubber inhaler and simple in-
structions for use, costs \$1.00.

Big Block of Stock
HELD IN NORWICH
From a Quarter to a Half Million
Dollars of the Swift Company Will
Take Share of New Capital.

It is understood that the Norwich
stockholders of the Swift Company are
holding their share of the additional
capital recently voted by the concern.
They are allowed one share of the
new stock for every four shares of the
old. An estimate of the local
holdings of that company places the
Norwich capital invested at between a
quarter and a half million. This would
mean an increase in Swift holdings
here from \$50,000 to over \$100,000, the
increased capital being fifteen million.

President Swift recently said to the
shareholders that the company's re-
sult sheets show less than 3 per cent.
profit on sales during 1910. A profit is
made on by-products which were made
before we had learned how to utilize
them by the aid of modern machinery
and scientific handling. There is no
industry in which the selling price
follows the cost for closely and with
so small a margin of profit. During
periods of plentiful supply and lower
prices for live stock and finished prod-
uct, the producer may be dissatisfied
and criticizes the packer. During the
periods of short supply and conse-
quently higher prices for livestock and
finished product, the consumer may be
dissatisfied and criticizes the packer.
